

## **EUROoCS Industrial Advisory Board**

### ***Members***

The EUROoCS Industrial Advisory Board (IAB) consists of representatives from industries that are engaged in Organ-on-Chip technology.

The EUROoCS IAB has been installed on 1 June 2020:

### ***Mission***

Provide support and guidance to the Organ-on-Chip community of EUROoCS to:

- Strengthen science and technology
- Promote acceptance of Organ-on-Chip technology by health authorities
- Cultivate collaboration between academia, small and medium-sized companies, large companies and health authorities around the world
- Identify recent or long-term developments and/or concerns of industry that might have a significant impact on the activities of EUROoCS
- Promote EUROoCS and scout for new relationships for EUROoCS among companies in order to catalyze greater industry involvement and collaboration in research activities
- Foster animal welfare and the 3Rs
- Foster, frame and coordinate academic and post-academic education for regulators, scientists, toxicologists and clinical pharmacologists around the world, with an emphasis on the developing countries.

### ***Involvement***

- The IAB will directly advise the EUROoCS board on translational aspects
- The IAB will be represented in the scientific program committee of the annual EUROoCS conference
- The IAB can offer an annual prize for company-named best showcase awards or travel awards for the EUROoCS conference

### ***Dues***

- Members are appointed by the EUROoCS Board for 3 years and are eligible for re-appointment for a second 3-year term
- Quarterly meeting with the EUROoCS Board via telco and annual meeting in person during the EUROoCS conference
